APPROVAL STUDIO EXTENSION GUIDE FOR MANUAL INSTALLATION

Prerequisites: Adobe Photoshop or/and Adobe Illustrator and/or Adobe InDesign are installed, and Adobe Creative Cloud is available.

Please, use tool called **Anastasiy's Extension Manager** (it is available both for PC and Mac):

1. Get [Anastasiy's Extension Manager](#).
2. [Download the ZXP file.](#)

3. Install the ZXP file with Anastasiy's Extension Manager.
4. Open Photoshop and go to Window > Extensions > Approval Studio to open the extension panel.

How To Manually Install On Windows:

1. Close Adobe Photoshop or/and Adobe Illustrator and/or Adobe InDesign if you have it opened.

2. [Download the ZXP file.](#)
3. Change the file extension of the downloaded file from .zxp to .zip

4. Open the following folder in Windows Explorer:
    %appdata%\Adobe\CEP\extensions\

5. Alternatively, you can also navigate to the folder by hand:
    C:\Users\username\AppData\Roaming\Adobe\CEP\extensions\

6. Create a new folder, e.g., "Approval Studio," so you end up with the following path: C:\Users\username\AppData\Roaming\Adobe\CEP\extensions\Approval Studio

7. Extract all files and folders from inside the ZIP file to the new folder you created in step 5.

8. Open Adobe Photoshop or/and Adobe Illustrator and/or InDesign and go to Window > Extensions > Approval Studio to open the extension panel.
